Landing Canary Wharf is London's flagship design-led venue,
blending architectural elegance, editorial grade hospitality,
and modular functionality.

ARCHITECTURALLY REFINED. INFINITELY FLEXIBLE.

With space for up to 450 guests, this is a place designed for distinction. Precision-led, highly personal, and entirely private. Whether for workshops, awards dinners or private gatherings, Landing Canary Wharf offers a seamless blend of architectural polish, fine-tuned hospitality and the freedom to make the space your own.

THE BUILDING

Designed by Japanese Architect, Jun Aoki as a contemporary form, the building's composition is inspired by the visual effect of wavelets on the water, producing a building that interacts and is sensitive to its surroundings.

The design and its inspiration of the natural movement of water is shown through its shifting reflections, changing light, and constant motion. This fluid language carries through to the interiors, where clean lines and natural light create a dynamic atmosphere that evolves throughout the day.
